LI Creating Well-Being Sharing Site

Long Island schools and mental health organizations have made a long-standing commitment to addressing the mental health and well-being of our students, staff members, caregivers, and community members.

In 2021, the Nassau County Council of School Superintendents' Mental Health Strategic Planning Committee created a comprehensive guide for school leaders and their mental health teams.

In an effort to share ideas and successful practices, we are now developing the [***LI Creating Well-Being Sharing Site***](#), and welcome submissions from Long Island schools and mental health organizations working with schools. Initiatives are organized into 5 categories that align with the 2021 [***Nassau County Mental Health and Wellness Strategic Plan***](#) (Guide):

- School Mental Wellness Leadership Teams
- Staff Mental Wellness and Social Emotional Literacy
- Interventions in Schools with Students
- Home Engagement
- Community-Based Partnerships
